Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
Applicant seeking a loan	Secure a loan for property	Married with no co-applicant income	Self-employed with a good credit history	Optimistic about loan approval

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A school/college student	Get quick and easy study notes from my syllabus	It is difficult to find accurate and concise notes	Existing sources take a lot of time and are not well organized	Frustrated and stressed
PS-2	A student preparing for exams	Practice with subject-wise quizzes	Creating questions manually takes a lot of time	I need personalized and instant practice tests	Overwhelmed and lack confidence
PS-3	A student with doubts in subjects	Get instant explanations for my doubts	I don't always get help from teachers or friends	I need 24/7 support with simple and clear explanations	Confused and stuck in learning
PS-4	A student who wants a study plan	Manage my study time effectively	I find it difficult to plan and follow a schedule	I need a personalized study plan and reminders	Unorganized and less productive
PS-5	A student studying in different languages	Access learning content in my preferred language	Many resources are not available in regional languages	I need multi-language support for better understanding	Left behind and less confident
