

Data Flow Diagram

Date	29 September 2026
Team ID	SWTID-2026-1393
Project Name	EduGenie – AI Learning Assistant
Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores.

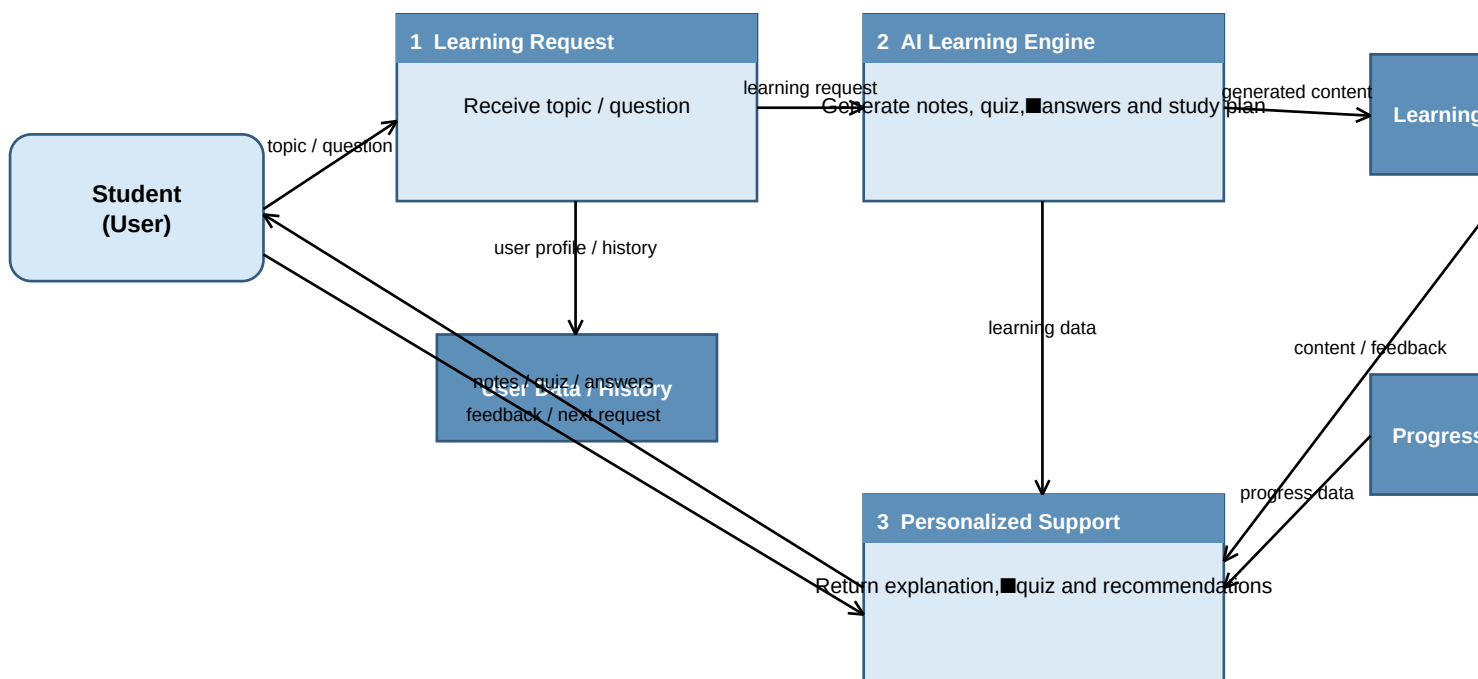

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person, organization, or system outside the project that sends or receives data.
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data.
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use.
Labeled arrow	Data Flow	The movement of data between entities, processes, and data stores, labeled with the data.

EduGenie DFD – Level 0 / High-Level Flow

The diagram below models the EduGenie learning workflow using the same DFD concepts and symbol legend in the supplied template.

EduGenie – AI Learning Assistant

Data Flow Diagram

Flow summary:

- 1. Student submits a topic, question, or learning request.
- 2. EduGenie processes the request and uses the AI learning engine to generate personalized learning content.
- 3. Content and progress are stored for later use, while personalized notes, quizzes, answers, and recommendations are returned to the student.
