

No. of Functional Features Included in the Solution

Date	29 September 2026
Team ID	SWTID-2026-1393
Project Name	EduGenie – AI Learning Assistant
Maximum Marks	5 Marks

Functional Features Overview

EduGenie provides AI-assisted learning functions through a web application. The following features represent the core functionality implemented for the project.

S.No	Feature Name	Feature Description	Module / Component	Status	Marks Contribution
1	Student Learning Interface	Provides the web interface for entering topics/questions and viewing AI-generated results.	Frontend / Web UI	Done	Core learning access
2	AI Explanation	Generates clear explanations for student-submitted topics or questions.	Explanation Module + Gemini API	Done	Core learning support
3	Question & Answer	Answers student questions and provides clarification for learning topics.	Q&A; Module + Gemini API	Done	Core learning support
4	Learning Path Support	Provides structured learning guidance based on the requested topic and learning need.	Learning Path Module + Gemini API	Done	Personalized learning support
5	Quiz Generation	Generates practice quizzes to help students test their understanding.	Quiz Module + Gemini API	Done	Assessment and practice
6	Summary / Study Notes	Creates concise summaries or study notes for revision.	Summary Module + Gemini API	Done	Revision support
7	Generative AI Integration	Connects the application to Google Gemini for AI-generated learning content.	Google Gemini API	Done	Powers AI features
8	Backend API Processing	Receives requests and connects the web interface with the learning modules and AI service.	FastAPI / Python Backend	Done	Application processing

Feature Summary

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6 – Learning Interface, AI Explanation, Q&A; Learning Path, Quiz Generation, Summary / Study Notes
Additional / Nice-to-Have Features	Generative AI integration and backend API processing support the core features.
Features Tested & Verified	8 functional areas verified during project development/testing workflow.

Feature Category Breakdown

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	1	Student learning interface
2	Backend / Logic	5	AI explanation, Q&A;, learning path, quiz generation, summary / study notes
3	Database / Storage	0	No dedicated database/storage feature specified for the current solution
4	API / Integration	2	Google Gemini API integration; FastAPI backend API processing
5	Security / Authentication	0	No dedicated authentication/security feature specified for the current solution
